Valkyrie Heavy/Spread/Gravity Trans

Valkyrie Heavy/Spread/Gravity Defense/Revolve

Valkyrie Heavy/Gravity Zephyr

Victory Valkyrie Heavy/Gravity Zephyr

Neptune Heavy/Spread/Gravity Defense/Revolve

## STADIUMS AND ACCESSORIES:

### **B-09 BeyStadium Standard Type or B-33 BeyStadium Standard Type Black:**

The mandatory stadium type for WBO tournament play and official testings.

---

### **B-16 BeyLauncher (Red) or B-39 BeyLauncher (White):**

A preferred type of Launcher from the Beyblade Burst line, providing more power than a standard Light Launcher. BeyLaunchers can be purchased in varied different types of colors.

---

### **B-40 Launcher Grip (Black):**

While not an essential, the Launcher Grip is a useful piece of equipment; its versatility allows Bladers, left and right-handed alike, to hold and launch in various types of ways.

---

### **B-10 BeyLogger:**

The BeyLogger is an efficient device that allows Bladers to upload data such as launch power and their personal Beyblade Burst collection to the Beyblade Burst App. In addition, the BeyLogger clamps on to your Launcher and can double as a grip. The BeyLogger + BeyLauncher and the BeyLogger + Long Winder duos have become two highly preferred Launcher setups.

---

### **B-45 Launcher and Long Winder (Orange):**

Including a revised Launcher and Long Winder, the duo has comparable success to a BeyLauncher, with less issues of breakage.
