

Hala's Plan for Quality, Affordable Healthcare

Hala's Record

Medicaid saved Hala's and her son's lives, and that is why she has always been a champion for access to affordable, quality healthcare in the legislature. In the General Assembly, Hala has been a fierce advocate for affordable healthcare. A defining vote in expanding Medicaid for now more than 500,000 Virginians, Hala has consistently been a fierce fighter against Republican efforts to eliminate protections for pre-existing conditions and gut the Affordable Care Act.

Hala's Plan

- Implementing a state reinsurance program
- Creating a statewide "buy-in" option to our Medicaid program
- Providing financial support for families struggling with healthcare premiums
- Expanding telehealth
- Incentivizing medical students to practice in rural areas
- Setting price caps on life-saving medications like inhalers and Epi-Pens
- create a Consumer Protection and Accountability Division within the State Corporation Commission
- Combating maternal, fetal and infant mortality disparities
- Modernizing our Medicaid enrollment processes
- Tackling the suicide epidemic among Virginia's veterans
- Increasing funding for substance abuse disorder prevention and treatment
- Decriminalizing mental health and supporting crisis diversion centers
- Ending the ID/DD waiver wait list
- Passing a constitutional amendment codifying Roe v Wade.
