

Al Hurreya 3 [Ro-Ro Ship]

Alexandria Shipyard's unique geographical location makes it of special importance to not only Egypt but to the world as well. The shipyard is at the largest city on the Mediterranean in the heart of seaborne traffic. This importance is getting augmented with the evolution of maritime transport and world trade. The maritime transport is the cheapest means of transport, whereas more than 80 % of the world trade volume is transported via waterways.

Alexandria Shipyard is always the supporting power behind the Egyptian Commercial Fleet with a long history of various types of cargo ships over than 35 ships with various capacities ranging from 3000 to 38000 tons. One of the newest additions to our portfolio are Ro-Ro ships, necessary to carry wheeled cargo that are driven on and off the ship on their own wheels such as cars, trucks, buses, trailers, railroad cars and even army tanks.

Alexandria Shipyard built three (3) sister ships, Al Hurreya 1, Al Hurreya 2 and Al Hurreya 3 for TSC (Triumph Shipping Company) to offer a unique maritime transportation service specially in the military field.

The Ro-Ro ship Al Hurreya have always been successful due to its flexibility, integration and operational speed with a cruising range of 9000 n.mile. The ship is also fitted to carry containers as well with an area capacity of 8200 m².

The ship is powered by 2 X 6000 KW Wartsila® engine with controllable pitch propeller and 2 X 450 KW bow thrusters.

Main Characteristics

Length, over all	173.60 m
Beam maximum	25 m
Design Draught	7.70 m
Gross Tonnage (GT)	11,350 DWT
Speed	17 knots
Container Capacity	907 TEU (Empty Container)
Classification Society	BV
