

Town of Brookline Massachusetts

Annual Loud Party & Noise Complaints 2014-2015

As a result of proactive enforcement as well as Operation Move-In, the number of calls received for loud parties and noise complaints was reduced for the school year 2014-2015 (September 2014-April, 12th 2015). An aggressive and proactive enforcement led to a 19% decrease in noise complaint calls, a 53% decrease in loud party calls, and a 1% decrease in total by-law citations issued compared to the previous school year. Those numbers are reflected in the first table, which shows a comparison between school years 2013- 2014 and 2014-2015.

The addresses shown in the second table housed tenants that received subsequent By-Law citations during the school year (9/1/14-4/12/15). Weekly updates were given to patrol units to notify officers of potential hotspots where loud parties were likely to occur. By utilizing this crime analysis technique, party patrol units were able to target the areas of Brookline where the majority of complaints stemmed from. This aggressive and proactive enforcement led to a decrease in noise complaint calls, loud party calls, and total by-law citations issued compared to the previous school year.
