

Introducing the PowerTower.

The PowerTower bench-top power solution that includes two power sockets and two USB ports for direct charging of phones, tablets, cameras, and other home electronics.

Power Tower

Pop Up Outlet

The PowerTower is an in-bench full-service charging station with two USB ports and two standard Australian power outlets. Designed specifically for in-home use the powerTower is the perfect solution for kitchen island benches or even the home office.

Custom Kitchens

The powerTower allows you to maintain the long clean lines of your splashback eliminating the need to cut in bulky and unsightly power sockets.

The powerTower includes two USB 2.1 ports for direct charging of phones, tablets, cameras, and other home electronics. Charging directly from USB eliminates the need for bulky chargers and converters! It also includes two Standard 10A 2400W General Purpose Power Outlets for easy everyday use.

A newcomer to the Australian market, Bream Innovation Pty Ltd is a small Australian company run and owned by a qualified Australian Electrician. Noticing that there was a gap in the market for smart benchtop power outlets and USB power solutions we introduced the PowerTower.

Pop Out Outlet

Pop Up Electrical Outlet

Our company goal is to deliver innovative and affordable electronic solutions to the Australian public. Focusing initially on the PowerTower we aim to expand our product line in the future so watch this space!

Electrical Pop Up

POP Up display are multidimensional cardboard displays that you often see in supermarkets, drug stores, retail outlets and big box shops. They are available in a wide range of sizes, shapes, designs and color schemes. Shoppers may not realize that they get easily attracted to certain cardboard displays due to certain features as compared to other.

Pop Up Outlet

When considering the different display possibilities, it may be easy to think that combining several elements can possibly attract a lot of shoppers. Though it may be true that some viewers can be attracted to an array of things, there are only a small number that would be attracted to clutter or a POP display that looks complicated, with too many elements.

Whatever a person's preference may be, this type of display can even turn their attention away. It is always important to consider the wants and needs of your potential customers. Whenever in doubt, always choose a clean and organized display to let your products or services stand out.
