Locating .minecraft[]

Under is a table exhibiting the default listing for .minecraft.

Locating the .minecraft folder may be vital for putting in a useful resource pack or to find any made screenshots.

The Home windows location within the desk above is just the default case. Launchers can set the .minecraft at any path.

If you are a Home windows user and are unfamiliar with how to seek out your appdata folder, follow these steps:

1. Click Begin Run. If you don't see "Run", press Home windows + R.
2. Sort %APPDATA%\.minecraft and click "Ok".

If you are a Mac user, you'll be able to open the folder by Spotlight:

1. Open Finder and press Shift + Command + G or open the Highlight popup through the magnifying glass icon on the right of the Menu Bar.
2. Kind ~/Library/Software Assist/minecraft and hit Enter.

On Linux or macOS, the ~ in the trail refers to the house listing. Folders starting with a . are hidden by default. In Minecraft-servers.biz , hitting Ctrl + H toggles their hidden status. In macOS particularly, since version 10.12 (Sierra), the shortcut Command + Shift + .
