

8% USDC REWARDS

CROBANK

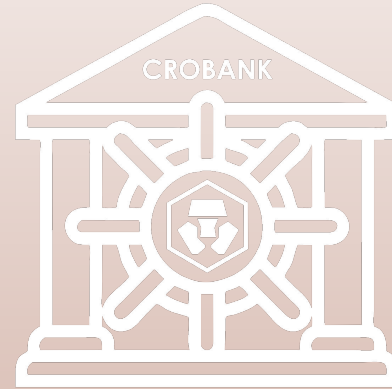

LIVE ON CRONOS

DEFI MADE SIMPLE

INTRODUCING CROBANK

CroBank is a USDC rewards token launched on Cronos Network. Simply hold \$BANK token and start earning USDC rewards. Rewards are deposited into \$BANK holder's wallet every hour whenever a buy/sell of \$BANK is made.

Our goal here at CroBank is to make Defi as simple as possible for everyone to take part in. CroBank believes that Defi is supposed to be fun and rewarding at the same time, hence we have built up this project along with an amazing community to bring simple Defi to the masses.

CROBANK

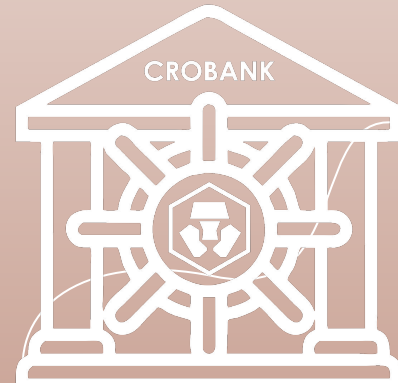

HOW CROBANK WORKS

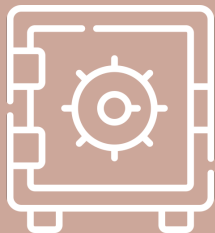

\$BANK token has a tax where 8% of every buy/sell goes back to the holders in the form of USDC. Another 4% goes to the auto liquidity, which will help us build a strong project. Another 3% goes to marketing for us to aggressively market our token out to the public. We will be reducing the taxes for auto LP & Marketing in the future.

USDC rewards goes from the contract to the \$BANK holder's wallet every hour when buy/sells happen. With higher volume, rewards get paid out faster. But ultimately, rewards will still be accumulating in the contract until the claim is done.

\$BANK will also be used for LP farming in the future with Cronaswap, since we have launched with them. In the future \$BANK will be used to mint NFTS, which can then be staked and earn rewards.
