This taxonomy is not based on what these groups actually say about themselves, because fascists always lie. Instead, it's based on what these groups actually do in the real world and who they target the most. For example, the average Threeper is more likely to burn down a mosque than a synagogue and the average accelerationist Nazi is more likely to burn down a synagogue than a mosque. The list only includes groups with a national presence, so many powerful regional hate groups, such as Neoconfederates in the South, have not been included.

This list is licensed under Creative Commons Attribution-ShareAlike 4.0 International (<https://creativecommons.org/licenses/by-sa/4.0/legalcode>) which basically means you can remix or adapt it all you want but you can't sell it or profit from it.

*Level of Bullshit is not about the belief system, but has to do with their subcultural practices regarding making threats. How often do they threaten targets, how sincere are they about following up on these threats, if they promise to show up at an event will they actually show and in what numbers, etc.

**Anti-Immigrant Racism overlaps almost entirely with anti-Asian racism, anti-Latinx bigotry, etc. None of these groups target white immigrants and many strongly encourage white immigration.
