

# A thorough guideline on Problem-Solution essay writing

If you are a student, your teacher must have assigned you academic writing tasks several times. Many students consider academic writing a daunting affair or a dreadful practice to fulfill academic writing assignments. Sometimes, a student becomes so confused that he puts his head down and frets out. He looks forward to observing educational writing pieces of a prominent essay writer and thinking about how I can [write my essay](#) like a pro writer.

Well, writing a top-notch essay undoubtedly is challenging, especially for neophyte writers. To overcome this issue, students are required to learn the predefined academic writing rules.

- **What is a Problem-Solution essay?**

There are several essay types among which a Problem-Solution is the one. Teachers give high importance to this particular essay writing. It assists teachers in assessing students' writing levels and their mental capability of analyzing the worth of an issue.

It is a particular genre of essay writing that demands an [essay writer](#) to critically examine a problem and give a solution that should be adaptable. The solution must be logical as there is no space for emotional feelings in the text.

However, students must know that whatever opinion you give regarding solving the issue, it must be robust and compelling.

It is also notable that this specific essay consists of four major elements that are as follows.

1. Analyzing a situation
2. Analyzing a problem
3. Giving its solution
4. Evaluating the worth of the given solution

2. **How to write a presentable Problem-Solution essay?**

Putting pen to paper merely is not a big deal. However, writing an engaging and top-tier Problem-Solution essay is not as easy as falling off a log. Doing so requires the in-depth interest of students, extraordinary writing skills, and profound knowledge of the issue.

We are presenting a thorough and reliable approach to compile a deep-dyed Problem-Solution essay in chronological order.

1. Firstly, you need to understand the assigned topic. For this purpose, you have to analyze the situation critically. Only then can you find the exact Problem.
2. You need to divide the topic's assignment into four major parts that are already mentioned above in this article. Well, we write it again for your ease.

Analyzing the Situation

Highlighting the primary Problem

Giving its Solution

Looking deeply into after-effects of solution

1. It would help if you went for brainstorming before commencing to writing a detailed Problem-Solution essay. It helps a writer to analyze the main Problem, its worth, and also its solution.
2. Create a handy outline. You can learn this art by observing the academic writing pieces of professional scribblers.
3. The opening sentence of the essay should be related to plotting a scene. It will help you in grabbing the attention of the readers. Plotting a scene is related to highlighting a situation. A writer has to take this information into account that while drawing a picture of a job or [write essay for me](#) assignment, he should not involve sensory details or emotional feelings in the text.
4. The next step is to highlight the Problem. It is a crucial stage in the introductory section. You are not supposed to explain the problem in this specific part of the essay. Instead, present the Problem before the audience concisely.
5. Furthermore, it would help if you gave a solid reason for writing this particular piece of paper. You should vividly explain it to the targeted audience that provokes you to draw the attention of the people towards a specific issue.
6. In the thesis statement, mark down the solution to the problem. That solution is your opinion regarding solving a problem.
7. The next step is to illustrate the Problem so that the readers can develop a better understanding regarding it.
8. Explain the [thesis statement](#) that consists of your opinion.
9. Give vivid examples and compelling evidence to prove the legitimacy of your opinion.
10. Conclude the essay by restating the thesis statement precisely.
