

# How to Watch CNN News Live Stream

CNN is a 24-hour news channel that provides comprehensive coverage of national and global issues. The network features programming such as breaking news, political debates, documentaries, and special reports.

Watch [CNN live stream](#) on a number of streaming services. Additionally, using a VPN allows you to bypass geoblocking restrictions and access CNN from anywhere around the world.

## You can watch CNN on Roku

If you're a fan of CNN, now you can watch the network without cable subscription. This is an ideal way to view live coverage of world news as well as documentaries and roundtable discussions from the channel.

Watching CNN on Roku is easiest with a streaming service like Sling TV, which offers free trials. Other options include DIRECTV Stream, FuboTV and YouTube TV - all of which provide similar free trials.

Roku users can watch CNN with a subscription to CNN+, an exclusive premium service featuring ad-free news programming. This service is now accessible on Roku as well as Amazon Fire TV, Apple TV, and Chromecast devices.

## You can watch CNN on YouTube TV

If you want to watch CNN while on-the-go, there are several options. These include DIRECTV Stream, Hulu with Live TV, Sling TV and YouTube TV.

DIRECTV Stream provides an expansive channel lineup, including ESPN, Nickelodeon and HGTV. Plus it comes equipped with a Cloud DVR that you can upgrade to for additional storage capacity.

Supported devices include Roku, Fire TV and Apple TV. Plus, new customers can take advantage of a free trial period.

YouTube TV is a top choice among cord cutters due to its expansive channel lineup and unlimited DVR cap. Plus, it provides local affiliate channels for ABC, CBS and NBC in most parts of the U.S.

## You can watch CNN on Hulu+ Live TV

If you're searching for a way to watch CNN without cable, there are plenty of options. Hulu+ Live TV is one of our top picks due to its free trial and low monthly price.

The service allows you to stream your favorite shows and movies, including live sports. Plus, it gives access to popular cable channels like ABC, NBC, and Fox.

You can get Spanish-language channels with CNN en Espanol, making it ideal for those interested in Spanish-speaking news if you live in a Spanish-speaking country.

## You can watch CNN on Sling TV

If you want to watch CNN live stream on your smart TV or streaming device, Sling TV is an affordable alternative. Not only is their service one of the cheapest ways to watch CNN without cable subscription, but they offer a free trial period so that you can try out their service before signing up.

The service is accessible on a variety of devices, such as smart TVs, Roku, Amazon Fire and Apple TV. Plus it has a Cloud DVR which records programs as they air. You have three plans to choose from to find one that meets both your needs and budget:

## **You can watch CNN on ExpressVPN**

If you're searching for a way to watch CNN news live stream, using a VPN is your best bet. Not only does it bypass geo-blocks that prevent people from watching certain content, but it's also an effective way to protect your privacy and security online.

ExpressVPN is the best VPN to watch CNN with. It's a fast, dependable service with excellent unblocking potential and plenty of servers around the world.

A good VPN also prevents your Internet service provider from slowing down your connection, which is often responsible for buffering and poor video quality on streaming services like CNN. Furthermore, a reliable VPN keeps personal information secure and stops tracking attempts.
