Full Colour

The logo should be CMYK (.eps files) for all print, and RGB (.png files) for all digital. There are 3 variations in which the logo can appear - Icon, Portrait, and Landscape. The wordmark 'PIVX' must always include the icon logo.

Reverse, Grey, and B&W

- The reverse logo should only be used when the background colour is too dark and black text is not visible.
- The grey logo should only be used when colour printing is not available. Do not use the colour logo and allow the computer settings to convert to greyscale.
- The black and white colour logo should only be used when solely 1 solid colour can be outputted. It is not a standard option for the brand (Only when greyscale or full colour is not an option).

Light Background

Logos allowed to be used on a light background (preferably white, or the light part of a photo). This applies to the Portrait and Icon counterparts with the same colour style.

Dark Background

Logos allowed to be used on a dark background (preferably black, or the dark of a photo). No patterned, or alternative coloured backgrounds, apart from the branding colours.

Proper Use of the Brand

The logo should be CMYK (.eps files) for all print, and RGB (.png files) for all digital. There are 3 variations in which the logo can appear - Icon, Portrait, and Landscape. The wordmark 'PIVX' must always include the icon logo.

Consistency is critical when using the PIVX logo.

1. Do not shrink or stretch the logo.
2. Do not add effects to the logo, such as a drop shadow or outlines.
3. Do not reproduce the logo at an angle.
4. Do not alter the relationship of the icon and the type.
5. Do not alter the relationship of any of the letters in the logo.
6. Do not incorporate the logo as part of a sentence.
7. Do ensure you are using the correct version of the logo that have been provided by Rhubarb Media.
8. Do not use the logo in any colour other than the colours provided.
9. Only place the logo on appropriate background colours. Do not place it on colours that clash with the logos or colours that are too similar to the logo.
10. If placing the logo over a photo, ensure that the logo is readable and stands out.
11. Do ensure that there enough negative space around the logo.
12. Do make sure you are using the appropriate logo for the appropriate use:
 - The "rev" (reverse) logo should be used on darker backgrounds only.
 - The "grey" logo should be used when printing will be only in greyscale.
 - The "por" (portrait) logo should be used whenever possible, if there is enough room around the logo.
 - The "ldsp" (landscape) logo should be used when the logo is being used in a wide, short space.
