

## PROJECT ZERO – SSZ100

We are pleased to announce that we have received a grant of £10000 from the Mrs L D Rope Fourth Charitable Settlement and have a pledge for a further grant of £1100 from the Airship Heritage Trust.

The project is still seeking additional funds and would like to offer you the final opportunity to claim some of our unique backers rewards and to be part of this special commemorative Great War replica.

With the return of those who had previously pledged to back our project, beyond the recent unsuccessful crowd funder **THANK YOU**, every contribution received will be used to enhance the replica build and the supporting displays, in this instance without any fees to a crowd funding site.

Donations can be made to the project by any of the 3 methods, filling in the table below:
