

## Where should I File my UCC-1 ?

In my opinion, the National UCC filing should be recorded in a Jurisdiction that recognizes international contracts. Therefore, I suggest Puerto Rico or Maryland. Or maybe both

- I. Research the CUSIP information for your certificate of live birth
- II. Authenticate the Certificate of Live Birth.
- III. Attach the Affidavit (.doc) which is a document of title, to the Certificate of Live Birth claiming beneficial ownership and interest in the underlying assets (Items 1 thru whatever on the certificate)

Recording the affidavit of title against the asset (page and book) number is necessary to credit a certificate in the Equity system. The underlying registration of your assets is one of the requisites of being treated as being in the **direct holding system**. Without such record of ownership, the right, title and interest to the estate remain **indirectly** held by the beneficiary through a custodian (blocked system/indirect holding system). After you record your title over the asset in the county, you can complete the registration of your security entitlement in the assets. The UCC-1, recorded interest, is a private lien (credit). After completing this step read everything you can and polish up your game on Trust Law, Securities, and Equity. **Read Ref and Study Material (5)** and also **reference (1)** Specifically teaching yourself how to identify a Trust (any kind of Trust) in commerce. "Trust Registration Statements"

- IV. Apply for Tax ID for the Living Trust/Foreign Trust or whatever trust you are going to use as the Secured Party. I highly recommend a living trust, or family trust. Whether or not you feel the need to apply for a 98-series tax ID number is something I leave up to your personal discretion.
- V. After recording the affidavit of title, you can record your national UCC-1 financing statement [updated 1/1/2017] A few Notes. [Secured Transactions Filing Regulations]

Your affidavit of title should NOT be exactly like our template, or you are not being **original**. Research-Entitlement Order, registration of claim as successor, also google "affidavit of beneficial ownership" for other examples
