

PROTECT YOUR SKIN & EYELASHES FROM DAMAGE & PREMATURE AGING

Do you realize that today's "gentle" cleansers and eye makeup removers, "soft soaps" and other chemicals daily rubbed into delicate skin around eyes contribute to problems such as dryness, wrinkles, lines, pigmentation as dark circles, eye infections and, actual loss of eyelashes? Women have been going through this process forever without understanding these are main reasons that causing premature aging and damage to the eye area!

Mothers need to be aware about this and teach daughters about protection of the skin and eyelashes from an early age!

We created Butterfly Eyelash Guard to fill a void in the marketplace. It offers new and safe methods for application and removal of eye makeup to ultimately SAVE and PROTECT the thin, sensitive skin around eyes and eyelashes from the damage resulting from contact with harsh chemicals during our daily makeup routine.

This professional beauty tool PROTECTS skin from permanent *deposits of black mascara residue into dermis and conjunctiva; rubbing, pulling and stretching of the skin during the process that is harmful to the skin and eyelashes.

(* For the SCIENTIFIC PROOF of hazards please read medical articles from U.S. National Library of Medicine, see photos and diagrams. Please return back to the "SHOCKING TRUTH" page.
