

UCC-1 Financing Statement – details offered by person

This is about how to access your Master straw man account. Actually this just creates an account to discharge your bills; it won't let you buy up a lot of new stuff with it. I've found it in another group where the guy posted it a month ago, but hasn't posted anything more since. Basically you take ownership of your Birth Certificate using UCC-1, and then use that as authority to create a discharge Bond. And it should work as A4V with a 100% success rate :-)

BTW, this is what the SPC process attempts to do, but falls short because it apparently uses incorrect process. Oh wait; did I just share a \$100 million secret with everyone for free? I meant to say 'Everyone who uses this to access their master account owes me \$5000', LOL.

"In order to receive a CUSIP number for your birth certificate bond first you have to file your UCC-1

> > Once you file your UCC-1 you will get the file number create your bond with the UCC Trust Account. Send your bond to the SECRETARY OF Treasury. When you receive your green card you know they have been notified you have claimed your Birth Certificate. You can then use your bond number to apply for a CUSIP number from www.cusip.com. Register for a new identifier as a 144A a Private security. If not you will have to apply through the NYSE via SEC. Make sure you hire a Trust firm to handle your DTC APPLICATION.

You have to obtain a CUSIP number for your bond. It is illegal to use CUSIP numbers from other instruments! It's illegal to use other routing numbers from other banks! You have to set your Treasury account up to get your own routing number set up by the FR bank.

To discharge debt, make sure when you apply for your CUSIP you apply for as a debt instrument if that is what you are going to discharge debt. You have to set up the TDA once you have DTC questionnaire complete and you will need an advising pass through bank in order to complete this process. They will be the TRANSFER AGENT for the treasury. The FR will not send you funds. Those funds will go directly to the pass through bank for debt discharge only. Which means they will settle the debt from this account.

> > Okay.....I'm going to' bite. Can't hurt to learn something new, but I have a couple of questions.

>

> >

>

> > 1-have you done this process yourself as of yet? Are you still studying or coaching the process?

YES WE HAVE SUCCESSFULLY PROCESSED AND COMPLETED A CUSIP APPLICATION THAT WAS ASSIGNED A CUSIP NUMBER TO BE REGISTERED WITH THE DTC. Good, so that means I have other questions for you.

Thank you in advance for your patience with someone not nearly as knowledgeable about what you do.

>

ROBIN,

I ALSO HAD TO LEARN THE PROCESS AND SPEND MONEY TO GET THERE. I DON'T MIND SHARING WHAT I KNOW AND WHAT I HAVE LEARNED.

2-the UCC filing number on the upper right hand corner is the number to use as a bond number?

THE UCC FILE NUMBER IS USED AS THE BOND NUMBER WHICH WILL REFERENCE YOUR BIRTH CERTIFICATE BOND NUMBER. THE UCC IS USED AS COMMERCE BY CORPORATIONS. THEREFORE YOU HAVE TO FILE THE UCC IN ORDER TO CREATE COMMERCE. If not, which number are you talking about?

>

> > Okay.....stupid question time

> (again). I already have a BC bond in place but am considering (actually need to) send in another to increase the credit amount Should I start my process now, wait until I send in another BC bond, or start now and repeat when I send in the new BC bond?

>

WE FOUND THE BOND AMOUNT IS 100 MIL. YOU MAY NOT EXCEED THIS AMOUNT. ONCE YOU FILE THE UCC-1 AND YOUR UCC TRUST IS SET UP I HAVE LEARNED THEY WILL THEN DEBIT YOUR ACCOUNT FOR THE 100 MIL. AFTER THAT YOU WILL HAVE TO SEND YOU BOND IN TO THE TREASURY SO YOUR DIRECT ACCOUNT CAN BE ACTIVATED. YOU WILL THEN NEED TO SET UP THIS ACCOUNT TO PROPERLY OBTAIN THE SECURITIES FROM THE TREASURY.

> > 3-What Trust firms do you suggest? What fees are involved? How are they compensated?

<http://www.phgslaw.com/main.html> THIS IS THE LAW FIRM THAT WILL ASSIST WITH THE DTC QUESTIONNAIRE AND GET YOUR BOND, ONCE ASSIGNED A CUSIP, ON BLUE SCREEN.

Again, what are the fees involved and how is the firm compensated? Are the fees up front or are they deducted once the bond goes live?

> THEY WILL CHARGE A RETAINER. I GUESS IT DEPENDS ON THEIR FEES. I KNOW WE SPENT WELL OVER 10K FOR OUR RETAINER BUT IT WAS WORTH IT CONSIDERING THEY WORKED DIRECTLY WITH DTC TO GET THE PROCESS COMPLETED. NO GUESS WORK ON OUR PART. BUT WE HAD TO SET UP THE CUSIP BLIND. WE HAD NO KNOWLEDGE OF THIS PROCESS. MOST OF

THESE PEOPLE WHO CLAIM THEY KNOW HOW TO REDEEM THEIR ACCOUNTS REALLY DON'T. YOUR BEST BET IS TO WALK INTO A BANK AND SPEAK TO A BANK REP ON THE "PRIVATE SIDE" OF THE BANK TO GET REAL INFORMATION. LIKE I SAID IF YOU DON'T KNOW NO ONE WILL TELL YOU.

>

>

> THIS PROCESS WILL ALLOW YOU TO USE YOUR ACCOUNT IN COMMERCE. BUT REMEMBER YOU WILL THEN BE RESPONSIBLE FOR PAYING TAXES ON WHATEVER YOU USE. AND IT COULD CREATE A HUGE IRS BILL. SO BE READY FOR HANDLING THIS TYPE OF ACCOUNT.

Wouldn't a BOE or IBOE cover any tax issues that may come out of this? And one last question and I hope you don't get offended because I am sincere: Is there anyone you have done this for that is willing to vouch for the process? As you mentioned in one of your posts, you've been burned before. I don't mind paying for information (the worker is worthy of his/her hire).

But I don't want the Men In Black on my door either if you know what I mean. I again thank you for your timely responses.

>

>KEEP IN MIND THIS A4V IS NOT ALWAYS SUCCESSFUL AND IF YOU RECEIVE A BILL FROM THE IRS AND IT'S OVER 100K IT WILL BE DUE IN 10-DAYS! SO THIS IS WHY I SAY BE CAREFUL WHEN YOU GO INTO THIS AND USE ANY FUNDS FROM IT YOU WILL HAVE TO FILE A RETURN ON IT. AND THIS IS NO JOKE.

Yes. When you set up the DTC you will need a bank involved. Make sure the account will be able to accept ALL "negotiable instruments".

> Okay, a pass through account from a bank is something else Mr. Lou stated as in a commercial account. I have looked into how to set up a commercial account by the internet and from what I researched, one must create a corporation. This led me to think of getting a LLC so that I may set up a commercial/pass through account for me to discharge debts. I have downloaded the eligibility questionnaire from the DTCC website. But I am still thinking through this process so I may have my ducks in a row before I begin.

And the UCC has to state the collateral in which will fund the trust. Therefore make sure the Birth certificate bond number is listed as collateral in your accounting statement. 100,000,000 is recognized in all trading platforms. The platform will only recognize this amount. It can also be broken down in 10 mil dollar blocks by financial institutions. But in order to trade on the platform those many 10mil blocks have to equal 100mil. I hope this helps!

So in order to be clear!

1. Redeem Birth Cert.
2. File UCC in state of birth and in one of the three redemptions States.
3. Post your bond with Treasury.
4. Once you receive confirmation (green card) from Treasury bond is activated.
5. Apply for CUSIP number through www.cusip.com.
6. Open up Commercial Account and TDA account.
7. Apply for DTC registration. Obtain Counsel.
8. Bond becomes live again on stock market.
9. Pull down funds from TDA through pass through account.
10. Start paying debts.
11. You can never walk into a bank and get cash from this commercial account! You may only pay bills. Once transfer bank receives funds they will immediately issue a MT760 to block this account. This MT760 can not be monetized only debt payments!

Make sure when you receive the 1099 INT you file the tax return!

12. You are all set!

Hope this is plain!

I didn't make anything. I brought into seminars and forums like this and disseminated some of the information and trashed other information. Since I knew a little about banking and instruments and the basis of claiming the Birth cart was to remove it from the company who was trading it so you could I realized some of these processes had to be some somewhat true. After two years of paying thousands of dollars to be who just talked

in circles I went to the one person who could help me with instruments and trading! To my surprise he knew about this and he lead me to the DTC and CUSIP process. The only thing I learned from the straw man process was the UCC and even that wasn't filed properly. I had to go back and file an amendment listing the collateral to make the UCC a true trust and then notified the treasury. It wasn't a quick process trust me. It took a lot of research and listening to BS and getting ripped off!

There is no need to create forms they can be found online. Your UCC can be filed online, your documents are registered mail to the treasury, your CUSIP application can be done online, YOUR DTC questionnaire may be filled out online as well. All you have to really do is do it."
